

ONE NORBITON WORKING TOGETHER

Can we all work together to improve EVERYONES life in NORBITON?

An exciting new pilot project called "One Norbiton" has just begun.

This will test the power of neighborhood democracy and see if local initiatives, knowledge and ideas can help the NHS and Council make better use of public money to improve Norbiton.

We are looking to tap in to the creativity of all the residents and businesses in Norbiton so that we can make it one of the best places to live in London.

Our new committee of local volunteers have no party political, commercial, or religious affiliations and will tackle important issues such as loneliness, loan sharks, housing problems, heating costs, stress on pre-school kids, youth problems, addictions etc. all by working together as a Community . And we will look to promote enjoyable creative and cultural ways of improving our lives.

In order that we can actually know whether we are making a difference we intend to measure our impact on the *Quality of Life* in Norbiton.

Already a group of about 300 homes and businesses have been chosen as this year's "One Norbiton" panel. Each year new panels will be selected *at random* so that every home has an equal chance of being included in them. Therefore they will be able to give a fair estimate of the feelings of the whole ward when we consult them on their priorities or ask them how happy they feel after any changes are made.

Please look at our new website onenorbiton.org.uk for more information on how you can get involved.
